PHARMACEUTICAL TECHNOLOGY TRANSFER:
A COLLABORATIVE APPROACH TO IMPROVING ACCESS TO CARE

MONDAY 26 JANUARY 2015
18:00 to 19:30
Registration & coffee from 17:30
Reception from 19:30

Intercontinental Hotel
7 - 9 Chemin du Petit Saconnex,
1209 Geneva
The International Federation of Pharmaceutical Manufacturers and Associations (IFPMA) and the Stop TB Partnership invite you to an event on pharmaceutical technology transfer. The event will take place from 18:00 to 19:00 on Monday 26 January 2015, at the Intercontinental Hotel.

This session is intended to stimulate discussion about technology transfer as a tool for improving access to medicines with a case study focused on multidrug-resistant tuberculosis (MDR-TB). It is particularly relevant for national governments, UN agencies, nongovernmental organizations, and other decision makers involved in technology transfer and access to quality healthcare.

Panel speakers will include senior figures representing UN agencies and the R&D-based pharmaceutical industry as well as representatives of Geneva-based national missions and manufacturers in low- and middle-income countries (LMICs).
