Let's make sure we cover the bases.

Try to make innovation happen before.

Protect lab resources.

Innovation is an unmet need's context.

Protect frontline HC workers.

It's a human duty.

We need public-private partnerships to tackle vaccines & public health issues!

For a better future:

- Educate healthcare workers.
- Make healthcare accessible worldwide.

More funding, more collaboration.

Change the mindset about health from burden to investment.

Visual facilitators.
