

# COLLABORATING FOR GLOBAL HEALTH PROGRESS

Discover how the **innovative pharmaceutical industry** works with partners to advance the SDGs

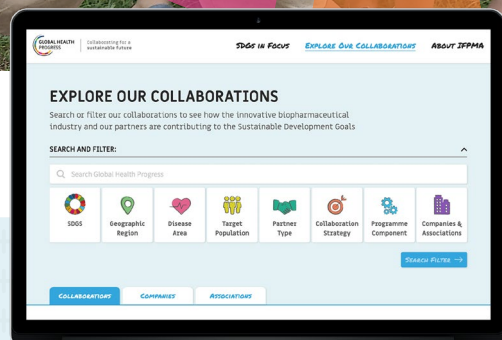

The **innovative pharmaceutical industry** is advancing the **United Nations Sustainable Development Goals** by bringing innovative solutions to health, social, economic, and environmental challenges and mobilizing **cross-sector collaborations**.

Our industry **discovers, develops, and delivers innovative diagnostics, medicines, and vaccines** that enable people to live longer, healthier, and more productive lives.

Providing a diversity of skills, resources, and expertise, we **partner to strengthen healthcare facilities, train healthcare workers, and increase disease awareness, enhancing product supply and delivery of care.**

This work contributes to Universal Health Coverage (UHC), ensuring it becomes a reality for patients, families, and communities around the world.

## EXPLORE OUR DIVERSE COLLABORATIONS

Global Health Progress is an interactive knowledge hub highlighting **over 250 collaborations** in low- and middle-income countries between the innovative pharmaceutical industry and **almost 700 diverse partners** to support the SDGs.

**EXPLORE PROGRAMS BY SDG TARGET, DISEASE AREA, PROGRAM STRATEGY, AND MORE.**
